

Rear Mesh Screen

Due to uncontrollable changes in temperature, humidity, geographical location, and any other unforeseen environmental impact, it is possible that the velcro adhesion to the frame may peel. In such circumstances, this simple procedure should solve the issue and get you back to enjoying your new Sim-In-A-Box!

3. After secured, Zip Tie the Side Flaps to the Frame for added support

2. Secure the Velcro Loop to the Velcro Hook on the Vertical Beams of the Frame
